

We love participating in the [Silicon Valley Organization](#) / [San Jose Works](#) internship programs, and as this year is coming to a close, we'd like to thank them again for the great opportunity.

From interview prep and resume building, to mock interviews and hiring, the program is a great way for high school youth to gain valuable Silicon Valley work skills.

This year's intern, Vincent, was a great help with all things marketing. From video capturing and editing, to joining in on conference calls, and content review. He even helped develop some super fun business cards and posters, and assisted with a LinkedIn outreach campaign

Vincent offered insights on how to inspire a new generation with print, and we're excited to announce he's agreed to continue helping us now that the program has come to a close. So keep your eye out for new videos and behind the scenes footage on our social media sites!

The 2019 program was a huge success, with a variety of companies and industries participating throughout the valley. To see other interns and companies who participated, search for the hashtags [#strivesan jose](#) and [#sanjoseworks](#) on Social Media!

We hope you will join us in celebrating a successful summer of working with the next generation of Silicon Valley talent thanks to the SVO, San Jose Works, and hardworking interns like Vincent! And if you happen to stop by our office when he's here, be sure to ask him about he super-power of print!
